

**AURORA  
BOREALIS  
OBSERVATORY**

## PHOTO WORKSHOPS

Don't miss out on the opportunity to learn more about the sky at night and improve your photo skills with our own world-acclaimed astrophotographer and Aurora guide, Adrien Mauduit.

### **NIGHT TIME PHOTOGRAPHY WORKSHOP** ALL LEVELS

The night time photography workshops is our most popular service. You will learn the basics of astrophotography, our guide Adrien Mauduit's specialty, while sitting comfortably in our lounge.

### **NIGHT TIME PHOTOGRAPHY WORKSHOP AROUND SENJA** ADVANCED

Our guide, Adrien Mauduit, will guide on a night photography journey around the amazing island of Senja. You will visit the most photogenic places away from light pollution.

### **NORTH STAR PHOTOGRAPHY SELFIE** ALL GUESTS

Whether you own a camera or not, we offer photography services anytime while you are at the observatory or during a workshop. You can ask our guide Adrien for a personalized "aurorafie", a selfie under the Northern Lights taken with the best astrophotography gear on the market.

## ASTROPHOTOGRAPHY POST-PROCESSING WORKSHOP

ALL LEVELS

To bring out the magic in the picture, the post processing of an astrophoto is just as important as the shooting. Adrien will guide you through some clever techniques to get the best results possible. This workshop includes editing pictures of the Aurora and the Milky Way with beautiful colours and stunning details.

## DAYTIME WORKSHOPS

We mainly focus on nighttime workshops and tutorials. If bigger groups want a photography workshop during the daytime, feel free to send a request and we will look up if we have any time for a session during your stay.

### DAYTIME PHOTOGRAPHY WORKSHOP

ALL LEVELS

Whether you would like to learn the basics of photography in general or to further improve your skills, our guide Adrien offers photography workshops at the observatory on request.

### DAYTIME PHOTOGRAPHY WORKSHOP AROUND SENJA

LEVEL: Medium - Advanced

Our guide Adrien will take you around the amazing island of Senja. You will visit the most photogenic places, and learn how to use the incredible light to get the best compositions in every situation.
